

### Yttria Stabilized Zirconia Jar with Lid

Nextgen Yttria Stabilized Zirconia Jar with Lid has high strength, good heat insulating properties, and oxygen-ion conductivity for use in a wide range of applications. Nextgen Advanced Materials supplies Yttria Stabilized Zirconia Jar with Lid with high quality and fast delivery, and customized products are also available.

### Product Description

You are welcomed to come to our factory to buy the latest selling, low price, and high-quality Nextgen Yttria Stabilized Zirconia Jar with Lid. We will always adhere to the principle of "quality first, client first," and we cordially invite customers to visit us for consultation. Zirconia ( $ZrO_2$ ) is a unique advanced ceramic. Products manufactured from zirconia powder exhibit superior mechanical properties such as high strength and flexibility. Heat insulating properties and oxygen-ion conductivity indicate zirconia has potential for use in a wide variety of applications - everything from telecommunications to the new energy of the future and environmentally beneficial products.

### Specification

item	value
Finish	ZINC, ZINC PLATED, Chrome Plated, Silver Plated
Material	Titanium
Measurement system	INCH, Metric
Head Style	Pan, Truss, Flat, Oval, Round, HEX, Cheese, Binding
Standard	DIN
Type	Ceramic Parts
Material	Zirconia Ceramic
Color	White or Black

Nextgen Advanced Materials INC
