

## Zirconia Mortar and Pestle

Zirconia features high density, low porosity, inertness, toughness and super hardness, so it is an ideal material to make Zirconia Mortar and Pestle. Nextgen Advanced Materials supplies Zirconia Mortar and Pestle with high quality and fast delivery, and customized products are also available.

### Product Description

You can rest assured to buy customized Nextgen Zirconia Mortar and Pestle from us. Its products have been well accepted throughout the country and marketed worldwide to markets in Europe, the United States, Africa, and Australia. Zirconia Mortar and Pestle Zirconia features high density, low porosity, inertness, toughness and super hardness. With approximately 10 on the Mohs hardness scale, zirconia mortar and pestle set is able to grind materials too hard for agate, alumina, and porcelain. Our high wear-resistant mortar and pestle effectively eliminate product contamination and is chemically inert to all acids.

These special features make zirconia the most versatile and best-suited mortar and pestle material for sensitive biological and other critical applications requiring ultra-low contamination and acid resistance.

### Specification

Item No.	(OD x ID x Depth, mm)	US\$
YSZ-M060	Zirconia Mortar 60 x 50 x 20 w/ Pestle	send us inquiry
YSZ-M080	Zirconia Mortar 80 x 65 x 30 w/ Pestle	send us inquiry
YSZ-M100	Zirconia Mortar 100 x 80 x 37 w/ Pestle	send us inquiry
